---

## **International Conference on Proteomics and Genomics**

**December 3-5, 2018, Valencia, Spain**

Organizer: Madridge Publishers

Dates: December 3-5, 2018, Valencia, Spain

Event Website: <http://proteomics.madridge.com/>

Contact person in case we need more information:

Name: Gowthami

Email: [proteomics@madridge.com](mailto:proteomics@madridge.com)

Phone: +1-302-231-6959

**Proteomics-2018** has been designed in an interdisciplinary manner with a multitude of tracks to choose from every segment and provides you with a unique opportunity to meet up with peers from both industry and academia and establish a scientific network between them. The international conference will focus on many interesting, knowledge empowering & enhancing sessions which cover all frontier topics & concepts in Proteomics & Genomics.

This conference aims to bring together the prominent researchers, academic scientists and research scholars to exchange and share their experiences in each and every allied concept of Proteomics & Genomics. The major goal of proteomics study helps in understanding the function of proteins and their role by advance technology in order to find a novel drug.

For any further information, please see our website: <http://proteomics.madridge.com/>

Conference mainly focuses on:

- Proteogenomics
- Human Genome
- Protein-Protein Interactions
- Advances in Proteomics & Bioinformatics
- Integrated Protein Analysis & Techniques
- Genomic Informatics
- Emerging trends in Proteomics

# International Conference on **Proteomics and Genomics**

Proteomics-2018

December 3-5, 2018 Valencia, Spain

Web: <http://proteomics.madridge.com/> | E-mail: [proteomics@madridge.com](mailto:proteomics@madridge.com)

---

- Hybrid Technologies
- Proteome Informatics
- Image and Signal Processing
- Immunoassays
- Methods of Studying Proteins
- Molecular genetics
  
- Proteomics in Drug Discovery
  
- Protein Expression and Analysis
  
- Protein *engineering & Genetic engineering*
  
- *Post-Translational Modifications*
