

ELGi Equipments to Launch Energy Efficient Air-Compressor Models for Highly Productive Granite and Marble Mining Operations

New Trolley-Mounted Compressor to be unveiled at India Stonemart 2019

ELGi Equipments (BSE: 522074 NSE: ELGIEQUIP), one of the world's leading air-compressor manufacturers, will participate in the 10th edition of India Stone Mart 2019, in Jaipur, Rajasthan. ELGi will not only display its entire range of trolley-mounted compressors best suited for granite and marble mining applications, but also unveil a brand new trolley-mounted compressor model - the PG75E-12.5. Also on display, at stall number 21 and 22, will be ELGi's PG550-200, PG450-200, PG22E - 7 and PG75E - 12.5 models.

ELGi's portable compressors, renowned for their reliability and ruggedness, are available in single and two-stage models. These compressors find wide range of application across the cable laying, blast hole drilling, exploratory drilling, construction, coal and marble mining, sandblasting, stone mining and crawler drilling. The portable screw air compressors feature energy saving eta-V profile air-ends, resulting in significant savings in energy costs. Fitted with international warranty engines, every ELGi portable air compressor ensures better fuel economy and lower emissions, all while providing uptime and durable performance at a low cost of ownership, coupled with longer service intervals and easy maintenance.

KEY PRODUCT FEATURES

- Energy efficient
- Highly reliable and work site friendly
- Centralized control panel for ease of use
- Easy manoeuvrability allows quick turns and climbing slopes
- Large access doors for ease of maintenance
- Tow bars designed for safe highway running, with single and multi-axle tow bar options
- Industrial grade steel and powder coated canopy for maximum corrosion protection and durability

"ELGi has a legacy of providing reliable compressed air solutions to the mining industry for over four decades," said

Mr. Ramesh Ponnuswami, Executive Director, ELGi. "Our compressors score high on reliability as they deliver the required drilling rate to the drilling units, and are very fuel-efficient too. Since they have to work in dusty areas and high ambient temperatures, every compressor has been fitted with pre-cleaners and a filtration system that prevents dust from entering the compressor and the engines. With a robust industrial grade steel enclosure and powder coated canopy, our compressors offer maximum corrosion resistance and durability. ELGi's portable compressors are manufactured locally and are therefore available on-demand and provide for ease of use via our ELGi parts and product support through tailor made warranty programs."

India Stonemart 2019 is one of the largest international events focused on the Indian stone industry. The event is expected to bring together various stakeholders from the industry including domestic and overseas producers, exporters / importers, consumers and buyers, experts, technology providers, marble and granite mining owners, processing units, traders under one umbrella.

About ELGi

Elgi Equipments Limited is a leading air compressor manufacturer with a broad line of innovative and technologically superior compressed air systems. ELGi has earned worldwide distinction for designing sustainable solutions that help companies achieve their productivity goals and keep the cost of ownership

low. ELGi offers a complete range of compressed air solutions from oil-lubricated and oil-free rotary screw compressors, oil-lubricated and oil-free reciprocating compressors and centrifugal compressors, to dryers, filters and downstream accessories. The company's portfolio of over 400 products has found wide application across industries. For further information on the organisation and its products, please visit <http://www.elgi.com>
